

EMERGENCY CONTACT INFORMATION CARD

The Motor Vehicle Administration (MVA) as a courtesy, provides the Emergency Contact Information Card attached at the bottom of this form to our customers. In the event of an emergency, a contact card provides law enforcement and medical personnel information to quickly contact your family and/or designated contact.

We are encouraging you to take a minute to fill out the card. The card is sized to easily fit in most wallets when folded in half. You may laminate the card if you wish for added durability. Periodically, review and update your contact information.

Instructions:

Fill out information on card. Cut out card along lines. Fold card in half along dotted line.
