Re: Plate Defacing- Return Tags

The Motor Vehicle Administration (MVA) is pleased to announce that effective immediately, we will begin utilizing a digital imaging process for all plates being returned. A picture of the plate will be taken and the plate number will be marked as destroyed in the MVA Perpetual inventory System (PICS). To insure proper cancellation, the camera must be able to read the entire plate number.

Therefore, we are asking that you no longer mark through or deface plates being returned. The stickers can still be defaced before sending into the MVA for destruction.

If you have any additional questions or require additional information please contact us at mvabicsd@mva.maryland.gov.
