**Plug-In Electric Vehicle HOV Permit**

Please check the appropriate box:  Original Issuance  Renewal

The above described vehicle must meet all of the qualifications listed below for Plug-in-Electric Vehicles used in High Occupancy Vehicle (HOV) lanes in the State of Maryland regardless of the number of passengers:

- The vehicle must be made by a manufacturer and be made primarily for use on public streets, roads and highways; and
- Has not been modified from original manufacturer specifications; or
- Has been modified from the manufacturer's original specification and made to be a plug-in electric vehicle. Please note: Customers indicating their vehicle has been modified to become a plug-in electric vehicle, need to have their vehicle examined by the Maryland State Police prior to the issuance of an HOV permit.
- Is rated at not more than 8500 lbs unloaded gross vehicle weight;
- Has a maximum speed capability of at least 65 miles per hour;
- Is propelled to a significant extent by an electric motor that draws electricity from a battery that has a capacity of not less than 4 kilowatt-hours for 4-wheeled vehicles and not less than 2.5 kilowatt-hours for 2 or 3-wheeled motor vehicles; and
- Is capable of being recharged from an external source of electricity.

I/we certify that my vehicle meets the above qualifications and the required HOV permit will be affixed on the rear of the vehicle in a visible position within 12 inches of the registration plate (not on the window).

**Hybrid Vehicle HOV Permit**

Please check the appropriate box:  Original Issuance  Renewal

The above described vehicle must meet all of the qualifications listed below for Hybrid Vehicles to obtain a High Occupancy Vehicle (HOV) Permit to access only the HOV lanes in the portion of U.S. Route 50 between Interstate 95/Interstate 495 and U.S. Route 301, regardless of the number of passengers.

- Can draw propulsion energy from both of the following sources of stored energy:
  - A. Gasoline or diesel fuel; and
  - B. A rechargeable energy storage system; and
- Meets the current vehicle exhaust standard set under the federal Tier 2 program for gasoline-powered passenger cars under 40 C.F.R. Part 80 et esq.

I/we certify that my vehicle meets the above qualifications and the required HOV permit will be affixed on the rear of the vehicle in a visible position within 12 inches of the registration plate (not on the window).
