Bulletin

The monthly FR-19 inquiry file has been delayed and will be released by the close of business Tuesday, March 24th. The deadline for completion will be April 8th. Next month's inquiry file will be released on April 15th, putting us back on schedule for future releases.

It has come to our attention that there may be some confusion regarding the type of response needed for verification. The transaction type of "INQ" must be changed to "ACK" for acknowledgement of insurance, or "NIS" for not insured. This determination should be based on the VIN and the verification date fields of the FR-19 record only. No other fields should be used to verify coverage. Optionally, if the NAIC and policy number fields are incorrect, the correct information can be sent back with the acknowledgment of insurance in order to update our database.

We appreciate your cooperation and hope this information proves useful.

Thank you.
