# Bulletin

**D – 08-15-08**

**Date:** August 13, 2015  
**Bulletin To:** Dealers and Tag & Title Services  
**From:** Business Licensing & Consumer Services  
**Re:** New Electronic Inspection Report

Please be advised, the electronic Maryland State Vehicle Inspection format has changed from a printed E-certificate to a full paper or electronically issued Inspection Report. A printed E-certificate is no longer available. The new form will still contain an inspection certificate number that begins with an “E” which will be located in the upper right section labeled Cert # (Sample attached).

The inspection station, at the request of the customer, may print or email a report for the customer. When an e-inspection is submitted, the mileage and inspection date will be returned from the MVA system and the mileage may not be lowered. If the inspection was not performed electronically, a paper certificate must be submitted with the title transaction.

The Maryland State Police have provided a website to search for an e-inspection or to locate an inspection station that processes electronic inspections. You may access the website at the following address: <https://egov.maryland.gov/msp/vsi/Lookup#/>

To view results of an inspection, input the VIN # in the e-inspection search field. The below inspection information will be returned for a passed inspection. If an inspection has failed, there will be no results returned.

## Maryland State Police Motor Vehicle Inspection

VIN	Inspection Date	Odometer	Result
1J4GW58N62C270646	08/03/2015	51789	Pass
