Re: Excise Tax Credit Request for Plug-In Electric Vehicles

Please be advised, effective immediately (February 19, 2016) the allotted funds for Plug-In electric vehicles for fiscal year 2016 are depleted. We are currently processing a number of applications received that will utilize the remaining amount of funding. Once all funds are exhausted, there will be no additional refunds issued for fiscal year 2016. Please alert your customers to this information prior to their purchase of an electric vehicle.

MVA will continue to accept applications for the excise tax credit until the end of fiscal year, even after the depletion of the fund. Plug-In electric vehicle refunds will resume in July 2016, for vehicles that meet the requirements.

If you have any additional questions please feel free to contact the refund department at 410-768-7346.
