RE: Collection of Excise Tax

As a reminder, when processing a titling transaction for a Maryland resident, all Virginia Dealers must collect 6% tax on the full processing fee charged to the customer. The 6% must be submitted along with the excise tax. This notification is due to a recent Attorney General Advice of Counsel on the collection of excise tax by a Virginia Dealer. The freight charges and any aftermarket product(s) authorized by the purchasers must be included in the taxable selling price of the vehicle.
