## Minnesota

- Statewide Visioning Workshop (June 25-26, 2018)
  - Educating stakeholders (panels & presentations)
  - Motivating stakeholders (keynote speeches)
  - Engaging stakeholders (conversation circles and break-out groups)
- MnDOT CAV Strategic Plan (in progress)
  - Extensive stakeholder outreach and scenario planning to help guide the conversation.
  - Includes strategy and recommended actions.
  - Anticipated to be completed in early/mid 2019

## Washington

Legislature passes a bill to create a Work Group  
(March 2018)

- SHB 2970 - establishing an autonomous vehicle work group to be convened by the Transportation Commission.
- Develop policy recommendations to address the operation of autonomous vehicles on public roadways.
- Language identifies specific participants, but the Commission may invite additional.
- Supports June 2017 Executive Order from the Governor that established baseline guidance for testing AVs on public roads.

# Washington

## AV Work Group Executive Committee

*DSHS, L&I and Commerce: Play a supporting role regarding cross-cutting issues including implications on social services, access, environmental justice, labor and small business*

# Washington State

1. Washington State Transportation Commission managing the legislative work group and holding meetings
2. WSDOT has its own internal work group, incorporating into LRTP, and has several pilot projects underway
3. Governor's office also has an Autonomous Vehicle work group and is continuing to foster economic development

## Other CAV Planning & Strategy Efforts

- Maricopa County (AZ) – developing a plan to expand the Anthem CV testbed, broaden the apps, and attract more AV testing.
- Penn DOT – almost ready to release their statewide CAV plan that has been in development for over a year. More than 300 recommendations will be included.
- Los Angeles County (CA) – strategic planning efforts to capture different CAV-related plans and focus multi-agency collaboration.
- Oregon DOT – legislation created statewide CAV task force to be led by ODOT, recommendations to be produced by this fall.

## Summer Conference Observations

- Safe Testing Practices
- Convenience Sells
- Messaging With The General Public
- Peripheral Stakeholders
- Public Interaction Will Impact Future Trends
- Timing Still A Mixed Bag
