### **Regional Workshop for Clinicians:** *Older & Medically At-Risk Drivers*

Tuesday, March 31, 2015

8:30 am – 12:00 pm (**Lunch** included directly after)

Greater Waldorf Jaycees Community Center

3090 Crain Highway, Waldorf, MD

Maryland Motor Vehicle Administration (MVA) is hosting this workshop on older driver safety in collaboration with Partnership for Healthier Charles County and with University of Maryland Charles Regional Medical Center. Registration and professional development hours are **FREE**. Seating is limited, and Clinicians **must RSVP by 3/24/15**. Clinicians interested should register at <http://www.mva.maryland.gov/safety/older/modss/CliniciansReg2015.htm> or contact Nanette Schieke at [nschieke@mdot.state.md.us](mailto:nschieke@mdot.state.md.us) for more information.

Clinicians play an integral role in recognizing medical conditions that may affect driving safety. These medical conditions may be particularly apparent with older adults. As age increases, older drivers experience a multiple of challenges on the road. The issue is not about being older, but the physical and cognitive issues with aging that impact on safe driving. Lectures and discussions will focus on these effects of aging and their relationship to driving, the MVA's process of referral and evaluation for medical fitness to drive, and how you can help with identifying medically at-risk drivers.

### **Occupational Therapists:**

APPROVAL PENDING as of 1/15: This continuing education program has been approved by the Maryland Board of Occupational Therapy Practice for xxx contact hours.

### **Allied Health:**

Nurses and other non-physicians attending the clinical workshop will receive a Certificate of Completion.
